

## **Pedscapes**

### **Auckland District Health Board Neonatology** (<http://www.adhb.govt.nz/newborn/>)

This is a comprehensive website on neonatology. The site contains a large collection of guidelines on neonatology, neonatology drug protocols and nursing communication guidelines. The teaching resources section contains material on ventilation, resuscitation and radiology. The Radiology resource contains a collection of images on conventional radiography, ultrasound and CT scans. Information sheets for parents are available for download.

### **Perinatal Pathology Images** (<http://library.med.utah.edu/WebPath/PEDHTML/PEDIDX.html>)

The webpath perinatal collection contains a large collection of gross and microscopic images on various neonatal conditions. Deformations and malformations form a major part of the collection, in addition to images on complications of prematurity, congenital infections and neoplasia.
