

SUBJECT INDEX 2021

A				J
Acetaminophen	229	DKA, insulin regime in	617	Juvenile idiopathic arthritis; and
Acute lymphoblastic leukemia, and				economic burden
body composition	436	E		macrophage activation
Anorexia nervosa	726	Eosinophilic meningitis	187	syndrome, in
Antiphospholipid antibody		Early child development, and		NSAIDs for
syndrome, and TB	82	global perspective of	s11	
Antiseizure drug levels	850	IAP position paper	962	K
Audiological surveillance program	445	incorporating nurturing care, for	s85	KMC, and discharge readiness
Autism spectrum disorders		intersectoral action	s28	932
in COVID-19 era	890	interventions, for	s46	
mealtime behavior problems, in	842	mHealth, promotion of	s37	L
Autoimmune hemolytic anemia	737	parental intervention program	s64	Lead encephalopathy
		policies and programs, for	s16	83
B		public health system, through	s22	Lymphocyte subsets, reference
Blood pressure measurement	643	RBSK screening	s73	ranges
		safety and security	s80	424
C		status in India	s4	
Calcinosis	88	services	s69	M
Cancer burden	417	urban slums, in	s32	Malformation, lung
incidence	430	Epinephrine	624	129
Catch up growth	325	Epilepsy, drug resistant	815	Macrophage activation syndrome
Cerebral palsy,		herbal medicine, and	71	1155
activity-based therapy, in	826	ESBL	144	Measles vaccine
bone mineral density, in	836	Exome sequencing	771	251
Child mortality, in tribal children	20	F		Meningitis, and scrub typhus
Cholelithiasis, management	729	Febrile seizure, and zinc	857	eosinophilic
Colon cleansing	115,1119	Ferritin	1143	187
Competency based curriculum		G		Modified Atkins diet
undergraduate students	675,775	Growth chart	149	815
simulated patients for	881	Growth hormone	1140	Movement disorders
COVID-19 and		H		861
clinical spectrum	126,453	Headache	757	Mutation PLA2G6
dengue fever	951	Hepatitis A vaccine	749	77
eradication	970	Hepatitis B vaccine	224, 237	N
immunocompromized, among	686	Hemangioma, and propranolol	753	Neonate, and brain injury patterns
management	453	HIV and Hepatitis B vaccine	224	breastmilk sodium levels, in
meningoencephalitis	183	HBNC, and growth monitoring	345	741
outcome	177,572	I		community based follow-up of
safe practice, during	383	Injuries	517	COVID-19
plasma therapy	89	prevention of	542	177
psychosocial wellness	75	knowledge of	532	COVID-positive mothers,
transmission dynamics	568	reducing	537	outcome of
D		home safety supervisory program,		853
Delayed puberty	684	effect on	548	COVID-19 outcome
Dengue fever, and MIS-C	951	profile of	553, 560	525
Dexmedetomidine	117			earmuffs for VLBW
Diabetes, type 2	176			943
Diarrhea, and management	332			early intervention practices
Diclofenac	229			s53
				EEG
				928
				family centered care
				s60
				feeding schedule
				320
				gastric lavage
				973
				hypothermia
				25
				hyperbilirubinemia
				936
				hypertatremic dehydration
				947
				KMC
				932
				MAS
				370
				mortality in pneumonia
				1040
				pneumonia, factors with
				1059
				PDA, restrictive treatment of
				140
				ROP, predictive algorithms
				915
				salivary CRP
				745
				skin care
				151

steroids	370	supportive positioning	733	clinical features, outcome	367
STRiP score	936	ear muffs for	943	meningitis	81
total parenteral nutrition, update	67	formula fortified milk, and	253	Sleep studies	1085
thyrotoxicosis	86	white matter injury, and	922	Snake bite therapy	219
vitamin D,	839	Primary immunodeficiency	246	SNCU, and quality care index	338
white matter injury	922	Propranolol	753	family participatory care, in	349
Nephrotic syndrome, congenital	445	Psychogenic seizures	259	Syncope	134
steroid sensitive	461			Syndrome	
steroid resistant	650	R		Turner	34
Non-invasive respiratory support, in LMICs	1077	Recommendation, on allergic		Wolcott - Rallison	80
Newborn; see neonate		rhinitis	765	T	
O		asthma	765	Thalassemia, and gene therapy	667
Ocular trauma	589	gastroesophageal reflux disease	1163	oxidant levels in	631
Overcrowding in, emergency department	723	immunization	44	pubertal development in	635
P		low osmolality ORS	266	thalidomide in	611
PDA, restrictive treatment of	140	neurocysticercosis	871	vitamin C deficiency in	637
PICU, and cardiac arrest	624	safe practice during COVID-19	383	Thalidomide	611
non-invasive ventilation, and	41	school reopening	959	Tocilizumab	186
tuberculosis profile, in	1136	skin care	153	Toxic encephalopathy	181
sedation, and	117	steroid sensitive nephrotic syndrome	461	<i>Toxoplasma gondii</i>	940
Pediatric assessment scale	241	steroid resistant nephrotic syndrome	650	Turner syndrome	34
Pediatric advanced life support, update	273	West syndrome	54	U	
Pentavalent vaccine	1131	COVID 19 vaccine, in lactating women	647	Update, on	
Pertussis	73	RASopathies	30	total parenteral nutrition	67
hospital based surveillance, of	709	Research methodology, and		pediatric advanced life support	273
Plasmaexchange	1151	improving patient care	377	V	
Pneumonia, and atypical bacteria	1056	interventional study design	1171	Vasopressin	624
behavior change communication	1046	publication ethics, and	781	Vaso-occlusive crisis	229
care seeking, for	1030	research question, formulation	584	Verbal autopsy	363
diagnosis	1024	statistical comparisons	987	Violence, against minors	556
management	332	S		Vitamin D	
mortality, in neonate	1040	SAM and psychosocial support	542	deficiency	888
persistent	1067	SARS-CoV-2 and MIS-C	639,718,955,	neonate, and	839
public health significance, of	1074	outcome	358	Vitamin D2	820
risk of hospitalization, in	1019	Sepsis, diagnosis	1143	Voiding disorder	1147
risk factors, in	1036	Septic shock	1117,1124	W	
severity scoring system, and	1052	Sexual abuse	564	West syndrome	54
Preterms, and developmentally		Scrub typhus, and Takotsubo cardiomyopathy	78
